

Maximum Fall Height

580mm

Minimum Undersurfacing Requirements

Area – 6.4 sqm (2.8m x 2.3m)

Materials

Body – HDPE sheet

Seat – LLDPE rotational molding

Spring - Powder-coated Steel

Footings – Galvanised Steel

Fixings - Galvanised Steel

Dimensions

Total Height – 815mm

Body Length – 810mm

Body Width – 300mm

Weight – 20kg

Spare parts - Available to order

Standards

EN 1176-1:2008

EN1176-6:2008

ISO 9001:2008

Applications

Age group - 3 to 12 years

Level of supervision - Young children should be supervised and inappropriate activities discouraged

Playspaces - Public parks, schools, early childhood centres, commercial play areas

Environment - Shade preferred for user comfort and protection.

- Salt air environments may reduce life of steel

Vandalism resistance - Low susceptibility
