To Whom It May Concern

We have worked with Playground Energy Australia for the past 14 months. From our first contact with the company we have found them to be extremely helpful, reliable and professional.

The LUMI kinetic rocker from Playground Energy is an excellent product and we have purchased many units to use in our play space projects in the past year. Our clients and collaborators include Landscape Architects and Urban Designers and they are equally impressed with the kinetic qualities of the product. Most recently we installed 6 of the kinetic seats for a new Vision Centre which forms stage 1 of a housing development in Melbourne's north called Cloverton.

We will continue to use and recommend LUMI products in 2017 to achieve the best possible outcomes for our play space projects.

Yours Faithfully,
